

## I'm Amrita Desai

As a Learning Partner, I specialise in facilitating bespoke workshops on impactful business communication, mindful leadership, emotional agility and conflict management. My special skill lies in designing stimulating and customised workshops for clients. Having worked across industries and sectors for a number of years, my significant corporate experience informs my facilitation and training. As a certified POSH enabler, I also conduct sessions for organizations on gender sensitivity and POSH awareness programs (refers to the Sexual Harassment of Women at Workplace Act, 2013).

While I am the quintessential working mom during the week, I can't wait to create Rothko-inspired, long exposure light paintings during the weekends.
